PENNY ROLLS:  
legal & handy

reinforce ends  
first!

use electrical or  
duct tape

★ added weight in your fist  
makes the punch so much harder ★

---

I would sooner fuck a dog than let your  
bigoted bullshit go unpunished.

---

Your parents told you from  
the beginning,  
"Ignore them and they'll go  
away."

Somehow insinuating that it's  
your fault you're getting  
hassled. Your fault they pick  
on you.

Drawing their fire. Making  
yourself an easy mark.

And when you get older:  
"If queers just kept quiet  
about it, they wouldn't get  
messed with."

Shut up, ya pervert. It's  
yer fault people hate you.

And we know that reasoning  
is full of shit.

We know that when you ignore  
bullies they just sneak up  
behind you and spit down yer  
shirt.

We know that when you ignore  
bigots at shows, in the streets,  
in schools, in our homes, they  
just get stronger in their  
ignorance.

Our nonreaction simply reinforces  
the stereotype of queers as  
sissies, as weak, as an  
easy fuckin target.

Well screw that.

I'm not saying kill the next nazi skin you see (although I wouldn't turn you in). But I want people to know that if you call a skinny little boy a faggot or a round little girl a slut, you're gonna get a boot to the knee or a fist to the nose.

We have to fight back because peaceful resistance doesn't work against individual attacks. Who am I gonna boycott to keep from getting harrassed at the grocery store? Who do I protest when my friend gets beat up a a show?

I tell you what I'm gonna do. I'm gonna travel in a pack and wear steel-toed boots. I'm gonna carry a penny roll in my pocket. I'm gonna have a baseball bat in my car and a friend by my side when I go out.

I'm gonna take the knowledge that I will get hit back and use it to make myself stronger. I'm gonna think of all the girls and boys who are too small to fight back and I'm gonna get one lick in for them, too.

If I fight back once, that's  
a failed attempt.

If two of us fight back when  
we can, that's a token  
gesture.

If queer punks all over this  
globe fight back whenever  
someone grabs a girl's ass,  
yells a bigoted epithet, or  
simply wears a fucked-up,  
homophobic/sexist/hateist  
t-shirt, that's a revolution.

Just once, I would love to  
hear someone say,

"I'm scared of those queer  
kids - they'll beat the crap  
out of you if you fuck with  
them."

Man, if I heard that, I would  
laugh for days.

Cut them from the pack. in

Don't be afraid to do what  
you have to.

Strike fast, strike hard,  
strike where it hurts.

Your parents were wrong -  
ignore them long enough and  
they'll get us all.

Instant physical retribution  
for any attack. Queer punks  
fight back.
