Tip From Mary - Never stick
your bare hand in to

(Title accredited to Moe and her buddy Heather)

1. Stop Using Anti-perspirant! It is expensive, and addictive! It actually causes you to sweat, so that you believe you need to use even more. BAD! BAD! STOP USING IT. YOU WILL SWEAT MORE FOR ABOUT A WEEK BUT THEN YOUR BODY WILL REMEMBER HOW TO REGULATE ITSELF. INSTEAD, USE PLAIN DEODORANT, OR BAKING SODA.

Love, Moe.

2. Douche is BAD! It's yet another product, designed by men, to make women feel ashamed and dirty. Your body, and your smells are NATURAL, and a result of your vagina's line of defense. Douche washes away these defenses, and may force any infections into your uterus by way of the cervix. A minor itch could then grow into something MEAN. SO, if you must, make your own GENTLE solution (vinegar/water) → (DISTILLED)*, and Douche GENTLY!

Love, MIRANDA

3. Snag yourself a copy of Our Bodies, Ourselves TODAY! It is truly essential reading. Nothing beats that good old-fashioned 1970's back in the day Feminazism.

Those were the days. I liberated mine from the city library. Get one right away. MAKE ALL the girls and boys and everyone in between read it. Read! Read! Read! That's all. Love, MOE!

BE HEALTHY. BE SMART. FUCK THE MALE PIG MEDICAL ESTABLISHMENT.

TAKE BACK YOUR BODY. Love, MIRANDA

THE PROM: AN EXERCISE IN VISIBILITY

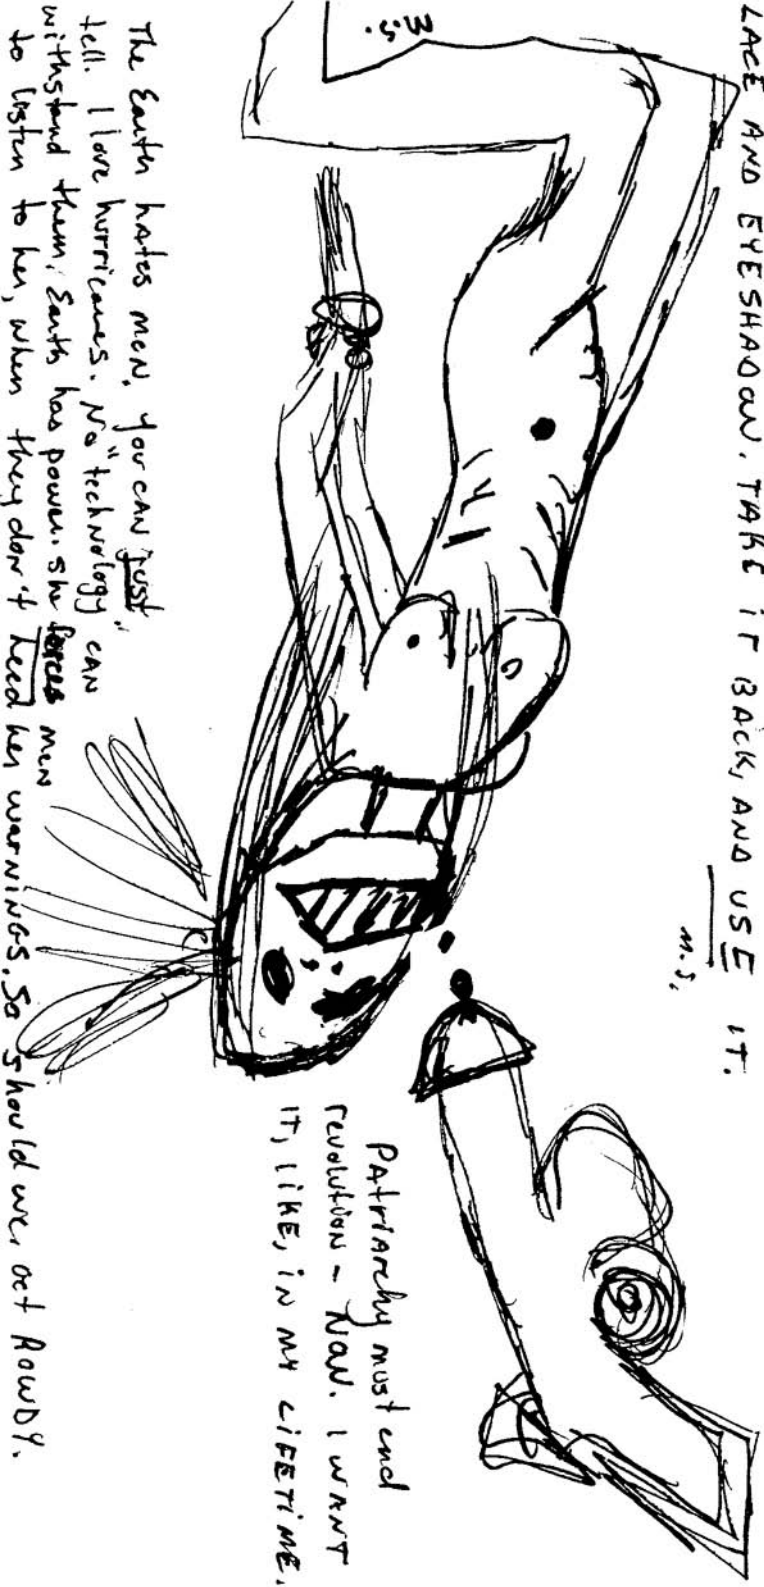

O.K now, I speak from experience. I've been to two proms, and I'll definitely attend this year. WITH MY GIRLFRIENDS. I'm so sick of them dragging their little hetero sexist parade out before my eyes. ~~There's~~ I got sick of trying to console dejected older girlfriends, as they sat around prom night, wishing they could safely share some culminating high school experience with a "love one". So, around tenth grade, I said "Fuck that," and now I'm a veteran. Now, many people ask "Why risk life and limb, for such a useless cause". Firstly - I've NEVER been attacked at the prom, I have been at the ~~the~~ Quikie mart - weigh your own risks - if you're really worried, talk to your school's security department. You'll find them eager to avoid lawsuits that may ensue if you get beaten up. Also, go with a group. There is safety in numbers. As for the "useless cause" argument; our love is worthy of public acceptance, we deserve the same opportunities. Just because it's different, that doesn't mean it doesn't count, right? Also, America needs to accept that we exist. What better opportunity to get it through their heads that we are human beings, who desire and will experience Affirmation!

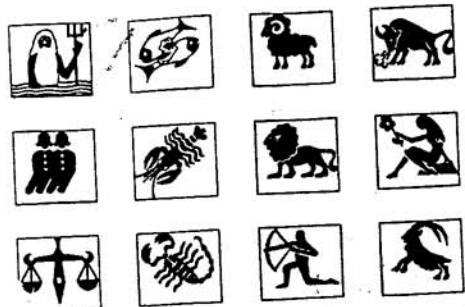

BELIEVE IN Field Hockey sticks and riots. Non violence is a wonderful CHOICE - But we don't have a choice. Non-violence is a sham for us; a way to CONTROL us. PASSIVITY is DRUMMED INTO US SINCE BIRTH, to make us easily dominated. MEN MAKE US INTO THEIR IDEAL. I CAN NOT CHOOSE TO BE NON-VIOLENT WHEN IT DEFEATS MY OWN PRESERVATION. FIND ~~YOUR~~ YOUR STRENGTH. IT'S THERE, IT'S JUST HIDDEN UNDER 22 TONS OF LACE AND EYESHADOW. TAKE IT BACK, AND USE IT.

Patriarchy must end
revolution - NOW. I WANT
IT, LIKE, IN MY LIFETIME.

The Earth hates men, you can just tell. I love hurricanes. No "technology" can withstand them, Earth has power. She forces men to listen to her, when they don't heed her warnings. So should we act ROWDY.

ANTI-SHERO

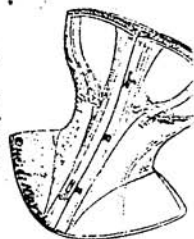

(Madonna
Of the wasps...)

Every time I turn on my television, she's there.

Groping, (herself and others), leering, and squeaking out bits of "oh so interesting" personal philosophy. Madonna.

Beautiful body, moves to kill for, the brain of a retarded orangutang...

It's gut wrenching to watch her to continue to exploit gays and lesbians. Yes, I ammend my orangutang crack to include "except when it comes to sucking money and attention

from the mouths of babes..." Madonna has turned lesbianism into a cheap publicity stunt, and noone seems to be noticing. Perhaps that is because nobody cares who exploits the fairies and dykes, but my childish faith in humanity leads me to hope that it's really because nobody believes she has the brain to conceive of such an idea. No self respecting lesbian would have labled herself "boy-toy", nor would she have married a goober like Sean Penn. "oh, but she's not a lesbian", you say, "she's bisexual!". Bullshit. People do not go from being male oriented sex symbols, to free love overnight. Unless, that is, they've realised that they need a new gimmick to sell the new album.
